

Dear Commisioners,

Please do not relax media ownership rules. Consolidation will result in censorship of the worst kind. I am a forty-two year old woman and I am appalled at the limited selection of news sources that I have today. Public radio and television stations seem to be the only sources of honest, unbiased information. While I am appreciative of these stations, I feel angry and appalled that they are my only choices. What has happened to our country? Consolidation will not lead to democracy. Please consider your responsibilities as you decide this matter. Thank you. Sincerely, Sandra Almand
